

WISDOM & CHANCE TCG

Business Plan — Executive Summary · Company · Product

Confidential · 2026 · Jason Myers / Legraphics

1. EXECUTIVE SUMMARY

Wisdom & Chance TCG is a fully operational tactical trading card game serving both web (browser/PC) and native mobile (iOS & Android) from a single shared backend. The game features real-time 1v1 multiplayer, an AI-powered practice mode, a complete card collection economy, ranked seasons, and a live premium monetization system. Revenue comes from premium currency (Gems), seasonal Battle Passes, and card pack bundles — processed via Stripe and PayPal. The freemium model gives new players a generous starter grant before surfacing premium options at natural engagement peaks. No external funding has been raised; the platform was built and launched independently.

2. COMPANY & FOUNDING

- **Founder:** Jason Myers (Legraphics)
- **Contact:** redeagle28089@gmail.com
- **PayPal receiving:** reagle2808@aol.com
- **Web app:** wisdom-and-chance.replit.app
- **Mobile:** Expo project @redeagle2808/wisdom-chance-tcg (project ID: 5b6489bb)
- **Source code:** github.com/redeagle28089-maker/Wisdom-and-Chance
- **Status:** Live and playable — web deployed, mobile build pipeline ready for App Store submission

3. PRODUCT OVERVIEW

Core Game Loop

- Sign in (Replit/Google on web, email on mobile) !' receive starter pack (500 gold + all Common & Rare cards)
- Build a 40-card deck with 1 commander using the AI-assisted deck builder
- Practice against AI (Easy / Medium / Hard) or match real opponents via the lobby
- Earn gold and XP from every match !' open packs !' expand collection !' climb ELO ranked ladder
- Complete daily/weekly challenges and battle pass tiers for bonus rewards

Key Features

- **Dual Platform:** Web (React/Vite) + Native Mobile (Expo SDK 54 / React Native 0.81) — single backend
- **Multiplayer:** Server-authoritative real-time 1v1 via WebSockets; lobby, rooms, friends, spectator mode
- **Economy:** Gold (earned), Gems (premium), Dust (crafting). Rarities: Common / Rare / Epic / Legendary
- **Ranked Seasons:** ELO tiers Bronze !' Master; season history, peak rating, end-of-season rewards
- **Battle Pass:** 50-level reward track per season; XP from matches, challenges, achievements
- **AI Integration:** Google Gemini 2.5 Flash for deck suggestions and admin card art generation
- **Admin Tools:** Card art generation, image database, user database management
- **PWA:** Installable from browser with offline caching and home-screen icon

4. MARKET OPPORTUNITY

The global Trading Card Game market exceeded \$12 billion in 2024 (physical + digital). Digital TCGs (Hearthstone, MTG Arena, Legends of Runeterra) have proven the model at scale. The indie digital TCG segment is underserved — most titles are web-only or mobile-only with weak cross-platform progression. Wisdom & Chance addresses this gap directly.

- **Target Audience:** Ages 14–35 — casual-to-competitive TCG fans, mobile gamers, Replit/indie game community
- **Primary Channel:** Replit community (built-in discovery), Expo Go mobile users, direct web traffic
- **Secondary Channel:** App Store / Google Play organic search after submission
- **Key Differentiator:** "Play anywhere, same account" — fully cross-platform with persistent progression

5. MONETIZATION MODEL

Freemium — Free to Start, Pay to Accelerate

All core gameplay is free. Premium options accelerate collection growth and provide cosmetic prestige. Starter pack (500 gold + all Common/Rare cards) ensures every new player has a competitive foundation on day one.

Product	Price	Notes
Gems — Starter (100)	\$1.00	Entry-level real-money option
Gems — Popular (550)	\$4.00	Best perceived value; highest expected volume
Gems — Gamer (1,400)	\$8.00	Mid-tier spender
Gems — Pro (3,600)	\$18.00	High-spender tier
Gems — Whale (8,000)	\$35.00	Top-spender tier
Battle Pass (Premium)	\$5.00 / season	50-level track per season (~30 days)
Starter Bundle	\$10.00 (one-time)	New player value pack; locked after first purchase
Season Pass Bundle	\$15.00	Battle Pass + bonus gems + packs
Standard Pack	100 gold or 100 gems	5 cards, rarity-weighted (60/25/10/5%)
Premium Pack	250 gold or 250 gems	Guarantees Rare+ card
Element Packs (×5)	150 gold or 150 gems	Element-filtered pulls — Fire/Water/Earth/Air/Nature

Revenue Projections (Conservative Year 1)

- 500 registered users !' 5% convert to any purchase !' 25 paying users
- Average revenue per paying user (ARPPU) \$12 !' ~\$300 / month
- Scale target: 5,000 users, 8% conversion, \$15 ARPPU !' ~\$6,000 / month
- Web payments via Stripe/PayPal preferred — 0% platform cut vs. 30% on App Store purchases

Payment Infrastructure

- Stripe — credit/debit cards + Google Pay via Stripe Checkout
- PayPal — PayPal REST API; all payments route to reagle2808@aol.com
- In-app currency — Gold and Gems usable as alternative payment for virtual goods
- All transactions server-verified, idempotent, and atomically fulfilled

6. TECHNOLOGY STACK

- **Frontend (Web):** React 18, TypeScript, Tailwind CSS, Shadcn UI, TanStack Query, Wouter
- **Backend:** Express.js (TypeScript), WebSockets, PostgreSQL with Drizzle ORM, pgSession
- **Mobile:** Expo SDK 54, React Native 0.81, expo-router, JWT Bearer authentication
- **Auth:** Replit OIDC + Google OAuth (web); JWT email auth (mobile); unified middleware for all API routes
- **AI:** Google Gemini 2.5 Flash — deck suggestions + admin card art generation
- **Payments:** Stripe Checkout + PayPal REST API (both integrated, need production keys)
- **Hosting:** Replit Deployments (web + API backend); Expo EAS (mobile builds + OTA updates)
- **Version Control:** GitHub — github.com/redeagle28089-maker/Wisdom-and-Chance

7. ROADMAP

- Immediate (0–30 days)**
Fix web login panel bug; configure Stripe/PayPal production keys; complete card art library; push to App Store
- Short-term (1–3 months)**
App Store live; launch on Replit community + Reddit TCG subs; first paid season; referral rewards
- Medium-term (3–6 months)**
Tiered Battle Pass (\$5/\$10); tournament mode; social sharing; content creator partner program
- Long-term (6–12 months)**
Guild/clan system; user card creator; international localization; live seasonal events

8. STRENGTHS & RISKS

Strengths

- Live product today — real players can sign in and battle right now
- Cross-platform from one codebase — lower maintenance cost, unified player base
- Server-authoritative multiplayer — prevents cheating, trustworthy competitive ladder
- Spectator mode + live match viewer — built-in community/tournament engine
- AI deck suggestions — lowers the learning curve for new players
- Full economy, progression, and monetization loop already implemented

Risks & Mitigations

- **Card art gap:** Economy feels hollow without art — complete AI art pipeline before any marketing spend
- **Single server:** Replit deployment has uptime limits — budget for dedicated infra at growth stage
- **App store fees:** 30% cut on iOS/Android — push web payments as primary revenue channel
- **No marketing budget:** Launch on Replit community, Reddit (r/tcg, r/indiegaming), Discord as zero-cost channels
- **Competition:** Hearthstone/MTGA have massive budgets — compete on niche: indie, cross-platform, accessible

9. COMPETITIVE LANDSCAPE

Competitor	Platform	W&C Advantage
Hearthstone (Blizzard)	Mobile + PC	Lower barrier to entry; no large studio overhead
MTG Arena (Wizards)	PC + Limited Mobile	Simpler rules; same strategic depth; truly cross-platform
Legends of Runeterra	Sunset 2024	W&C fills the evacuated "fair F2P TCG" niche
Indie TCGs (misc)	Mostly web-only	W&C has cross-platform accounts — industry rarity

10. FINANCIAL SUMMARY & SEED ASK

Built and launched with zero external funding. Current monthly costs are minimal (Replit hosting). To accelerate to App Store launch and first marketing push:

- **App Store fees:** Apple Developer Program \$99/year • Google Play one-time \$25
- **Art budget:** \$500–\$2,000 for professional card art (or AI art pipeline expansion)

- **Initial marketing:** \$500 targeted spend to TCG communities on social platforms
- **Infrastructure:** \$50–\$200/month for production DB + CDN at scale
- **Total seed ask:** \$1,500–\$3,000 to reach App Store launch + first 1,000 active users

Bootstrap path is fully viable: web launch !' first paying users !' reinvest in art + App Store submission. Revenue from just 50 paying users (~\$600/month) covers all current operational costs.
